

Eco-Schools Music Video Competition

Sustainable is Possible Melody: Impossible

We are generation next.
Please world show us some respect.
Save the planet for your kids.
Do it!

There is new technology.
Make our planet garbage free.
Save the planet for your kids.
Do it!

And we ask: How hard can it actually be? To keep our planet healthy and clean.
We have solutions; we just need to act now!

(chorus)
We know you have heard it.
Mother earth is hurting.
Something must be done now.
We must use our "know how".
Nature is depleting.
Companies competing.
Climate change is closing.
Here's what we're proposing, now.
Sustainable. It's possible
Sustainable. It's possible

Natural and toxic free.
Healthy food is what we need.
GMO technology,
Scrap it.

Cut down on emissions too.
Change the global mission do,
what we tell you,
think about your conduct.

We think it's strange, how many grownups don't want to change. It is our future you're compromising. There are solutions we just need to act now.

(chorus)

Text by: Hanne Marie Edvardsen Jelavic

Foundation for Environmental Education (FEE) is an international charity that has been promoting environmental education for sustainable development since 1981. FEE is an umbrella organisation with members in more than 60 countries worldwide. FEE is active in environmental education mainly through five programmes: Blue Flag, Green Key, Eco-Schools, Young Reporters for the Environment and Learning about Forests. More information about FEE and the FEE programmes can be found at www.fee-international.org.
