

## Learning Corner toolkit

Welcome to [Learning Corner](#)! It offers a comprehensive source of learning materials about the EU, including activity books, videos, competitions, games, news and other multi-lingual materials for 5-18 year olds, their teachers and parents.

As well as finding inspiration for lesson plans, you can also discover networking opportunities with other schools and teachers across the EU. The material is filtered by age group, topic and type of material to help you find the best material for each purpose.

All materials are available for free, either directly on Learning Corner or by following the link to the EU Publications Office.

### Discover the EU's learning materials and games on climate and environment

“Fridays for Future” has shown that climate change and environmental protection are important to all age groups. Young people are ready to adopt a sustainable lifestyle, consume more consciously and urge politicians to take concrete measures for meeting climate goals. What’s at stake, and what does the EU do to support young people in protecting the environment?

Here below is a selection of ready-to-use learning materials on climate and environment topics:

#### [Climate & Energy Quiz](#)

With this quiz, students can become climate heroes! The questions on climate & energy are split in two levels, for children from 9-12 and for grown up (future) climate champions.

### [Our planet, our future](#)

“Our planet, our future” is an interactive site where students from 9 to 15 can learn about the science of climate change, what’s happening across the EU and how we can all do our bit to fight climate change. In addition, the Teacher’s Hub contains a selection of classroom exercises and relevant materials.

### [EU Energy Policy](#)

What is energy efficiency, what are the EU’s energy resources and what could be the energy of the future? The answers to these questions are given in 5 short videos, ideal for students from 12 years onwards. The videos are accompanied by a quiz to help teachers start a discussion on the topic in the classroom.

### Ready for the Green Challenge?

Classroom ideas for a greener Europe, from consuming, eating, housing to travelling. Developed as part of the [Ding Dong campaign](#), teachers can use the presentation to engage their students in discussions and inspire them to take action.
