What is Mediterranean Scrubland?

A natural environment rich in plants and animals to explore

HABITAT

Warm climate

Sun and wind

Little water

Near the sea

PLANTS

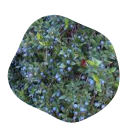

Evergreen and resilient

Holm oak

Mastic tree

Myrtle

Strawberry tree

Broom

ANIMALS

A rich variety of species

Birds

Reptiles

Insects

Small mammals

WHY IS IT IMPORTANT?

Protects the soil

Helps retain water

Helps the air and climate

Keeps nature in balance

The more you know nature, the more you learn to protect it

Mediterranean scrubland grows in both Sicily and Malta
It is important to take care of it together

This poster is part of MedMaquis, a project between Sicily and Malta to learn about and promote Mediterranean nature. It is supported by a European Programme that helps countries work together to protect the environment and local areas.
